

BEER OF THE
MONTH

5,50 €

Tripick 6 °is an unfiltered high fermentation craft blonde beer with a second fermentation in the bottle.

It's made of 3 varieties of hops and spring water drawn from the heart of Belgian Ardennes for its purity.

It sets itself apart by its hoppy side with a present bitterness but well mastered as well as spicy flavors, but it remains lighter than its sister (Tripick 8), flexible and floral at the same time.

**Brassée à la Brasserie Les Trois Fourquets
(Lupulus) par F. Ambroise, N. Léonard et E. Mewissen.**
